WHAT ABOUT...

PRICING REASONING?

We determined prices by gathering, comparing, and applying leveling, income, and economy data over time (*XP, DTs, game rewards, etc*) to established resources (*WotC books and experience*), time expectations (*i.e. how quickly the average player could afford them*), and against set limitations (*to avoid dragon hoards*) and server relevance (*how helpful items are in our setting*).

BANNED ITEMS?

Certain items haven't been approved for purchase or rewards for their unpredictable randomness, being overpowered and hard to balance, application to setting, or because they provide a detriment in some way (like **Cursed Items**).

SOME OTHER QUESTION?

Ask in **'?s for Staff'** if you still have any questions regarding items or pricing in Silverymoon.

RARER ITEMS

WHERE CAN I GET THEM?

Powerful magic items are not readily available in stores. These are found in **quests** only.

WHEN CAN I GET THEM?

How many of higher rarity items and when you can begin receiving them depends on your power via **level tier**. Tiers are grouped by your character's *proficiency bonus*. See chart below for details

RARITY LIMITS (TOTAL PER TIER)

Level Tier	Minor Rare	Major Rare	Minor V. Rare	Major V. Rare	Minor Legendary	Major Legendary
4	-	-	-	-	-	-
5-6	1	-	-	-	-	-
7-10	2	1	1	-	-	-
11-14	3	1	1	1	-	-
15-20	3	2	2	2	2	1

PRICES MAY FLUCTUATE

As we keep watch of trends, **prices are subject to change** as the server changes.

HOW ARE REWARDS CHOSEN?

DMs may choose rewards that fit the quest theme, random selection, hand picked for players, or even to reward greater gold instead.

In major item selections, DMs collaborate with the player for what category of item your character could utilize and enjoy for their build.

Players **may not request** specific items, but may list wishes in the **'Little Wishes'** channel .
